Standard Features

The mark of responsible forestry

Water Resistant Floors All sink base and sink base vanity cabinet floorings are powdercoated for water resistance and extra durability.

Maple Hardwood face frames are 3/4" thick and 1 1/2" wide kiln-dried hardwood. Frames are assembled under pressure with screws for maximum strength.

Standard 1/2" Back and Sides are available as a plywood upgrade.

5/8" plywood dovetail drawer features four sided construction and captive 1/4" matching laminate bottom.

Powdercoated Shelves offer extra durability. High water, scratch, stain, and temperature resistances.

6-way Adjustable Hinges are self-closing and concealed within the cabinet door and frame.
